South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal , and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Rose Cnudde De Buysscher

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit penny wise and pound foolish investments in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. It's much better economic policy to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Janet Nagel
